

Instructions

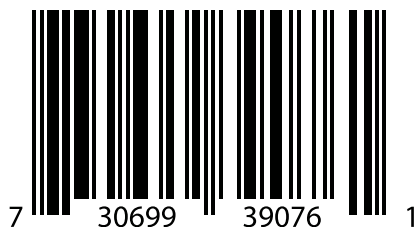

1. The kickstand should never be deployed with a passenger in the trailer.
2. The kickstand should be installed as far forward as possible, making it easier to reach with your foot.
3. Adjust the legs to achieve the desired height.
4. The kickstand must be installed leaning forward, as indicated in the pictures.
5. Deploy the kickstand on level, firm surfaces.
6. Install using three bolts as indicated in pictures.
